■80W triac dimmable driver Mechanical Specification

- ※Input Brown with AC (L),Blue with AC(N)
- ※Output Red is (DIM+) ,Black is (DIM-)
- ※Note: Any other requests we can customized.

■Dimming Operation

- ※Output constant current level can be adjusted through input terminal of the AC phase line(L) by connection a triac dimmer.
- ※Compatible with Leading edge or tailing edge triac dimmers.
- ※please try to use the small power dimmer, have access to a wider dimming range, high-power dimmer is difficult to achieve the output current to zero
